"On behalf of IUPS Executive Committee (ExCo) I would like to congratulate the Portuguese Physiological Society (SPFis) for its official registration in your country. The IUPS is pledged to joint force with national and regional physiological societies and federations to promote physiology in research and education towards the realization of our motto "Physiology without borders". Particularly, the inclusion of a debate on "what does the future hold for physiology" is timely relevant to the mission of IUPS to return physiology to center stage of biomedical science."

Professor Julie Chan, President of IUPS

"I would like to congratulate you about launching the Portuguese Physiological Society and organising its first international event... and look forward to co-operating with you."

Professor Dr. Bayram Yilmaz, Secretary General of FEPS

"On behalf of the APS Conference Committee, APS is pleased to support the 1st International Meeting of the Portuguese Society of Physiology"

Julie Levin, Meetings Manager, The American Physiological Society

"The Physiological Society is pleased to support the Portuguese Physiological Society's Physioma2019 conference. This is an important time for physiology across the world and we welcome this new initiative. I look forward to working with the Portuguese Physiological Society now and in the future."
